

# 100 BEDS FOR HAITI

## THE CAMPAIGN

Thousands of displaced Haitians have relocated to Northern Haiti to escape the physical devastation of the January earthquake. As one of Haiti's largest and best functioning private hospitals, the Hôpital Sacré Coeur (HSC) is responding to this population change and their health needs. Prior to the earthquake, HSC had 73 permanent inpatient beds. Since the quake, the hospital has made emergency expansions to meet the inpatient needs of an additional 400+ patients. In the months ahead, HSC plans to maintain a total bed count of 200, making the need for more quality hospital beds overwhelming.

The 100 Beds for Haiti Campaign is made up of creative and passionate citizens, students, and professionals dedicated to improving health services in Haiti. In partnership with HSC and The CRUDEM Foundation, Inc. we aim to raise the money and resources to purchase and deliver 100 hospital beds to meet this immediate need and support the sustainable, long-term recovery and development of Haiti.

## WHY 100 BEDS?

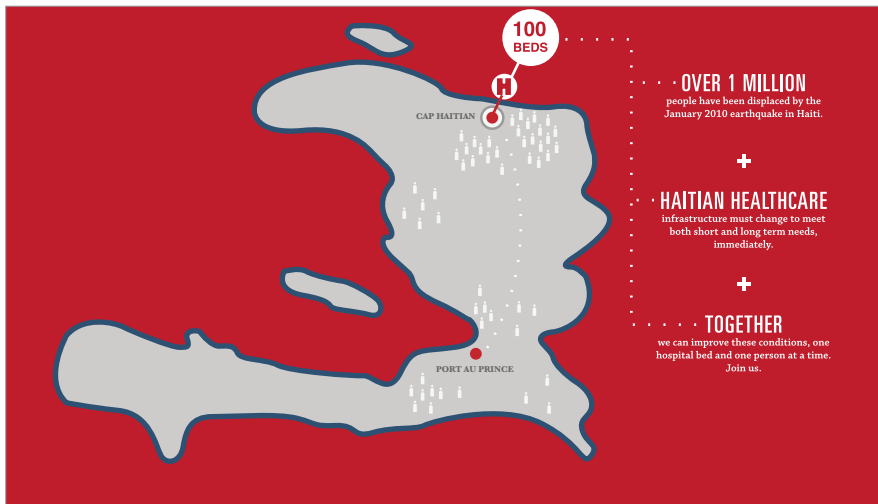

Long-term recovery requires long-term solutions. The Haitian people have emergency needs now as Hôpital Sacré Coeur has many patients still assigned to cots and stretchers for lack of hospital beds. But many are long-term patients and need physical therapy, rehabilitation, and surgeries, and additional medical conditions will result from lack of durable beds. Also, Hôpital Sacré Coeur must expand to meet the needs of an increasing population. By sending more quality beds, nurses and doctors can ensure that patient recovery happens faster and meet the population's needs. Quality hospital beds are durable and, in the long run, are an economical investment into Haiti's overall long-term recovery.

## HOW WE WORK

Through grassroots mobilization, in-kind donations, corporate giving, fundraising events, social networking, media and blog support, and word of mouth, the 100 Beds for Haiti Campaign is raising the necessary resources through our friends, colleagues and supporters across the country and world to support our goal of delivering 100 hospital beds to Haiti.

## WHO WE ARE

We are a team of young professionals bringing experiences in public health, disaster management, economic development, advocacy, law, journalism and media, humanitarian aid, visual and performing arts, community building, philanthropy, marketing, event planning, and social networking to help Haiti. Our core Steering Committee is guided by a network of supporters including an Advisory Board and Key Stakeholders. Our commitment to helping build a stronger future for Haiti is rooted in the recognition of our shared humanity and our responsibility to use our talents and energy to create positive, sustainable change for a healthier global community.
